2. When was the last time you took some medicine? What was it for?
3. Why do you think some people do not like to take medicine?

### II. VOCABULARY PREVIEW ボキャブラリー

- irritation
- take (medicine)
- prevent
- antibiotics
- antipyretic analgesic

III. DIALOGUE READING シチュエーション学習

Pharmacist : Here is your medicine; **antibiotics** with **antipyretic analgesic**, stomach medicine, and cough syrup

Patient : Which are the antibiotics and which is the stomach medicine?

Pharmacist : The yellow capsules are the antibiotics and the white tablets are the stomach medicine.

Patient : What is the stomach medicine for? I have a cold.

Pharmacist : You might have some stomach **irritation** because of the antibiotics. The medicine is to **prevent** any irritation.

Patient : I see. How often should I take the medicine?

Pharmacist : **Take** the antibiotics and stomach medicine with water after every meal. Take the cough syrup before breakfast and dinner.

Patient : I see. Thank you.

Pharmacist : OK. Take care.
